Review on New Geological Era of Wireless Communication Technology

Reviewer 1: --

1. In several sections sentences has spelling and grammar mistakes, which needs to be corrected.
2. In several sections sentences has space problem, which needs to be corrected.
3. Proper sentence construction in several sections to be modified.

Comments to Editor :

1. After modifying the content, paper can be accepted for possible publication.

Reviewer 2: --

1. Paper should be written in JMCMS Journal format.
2. References and in-text citations are not in JMCMS format. More references should be included and sequentially/adequately arranged, as cited in the text.
3. In the second section, the size of the system needs to synchronize with other words. Again, in the same section, authors used twice the same heading, i.e., "Design diagram- High level". The authors need to remove one of them and write correctly.
4. Object detection using ANN, is a very popular topic in research, a lot of research already carried out; now, it the responsibility of the authors to establish the novelty of their research. Hence, a comparative study is required with other papers.
5. Conflict of interest regarding article should be mention in the text.

1. Paper should be written in JMCMS Journal format.
2. References and in-text citations are not in JMCMS format. More references should be included and sequentially/adequately arranged, as cited in the text.
3. It is also advised to the authors to add a few diagrams, tables, etc., so that the technology can be realized in a better way.

4. It is also advised to the authors to provide papers from the reputed publishers like IEEE, Springer, CRC Press, Willey, etc. Most of the papers are non-indexed journals (try to use WOS or Scopus Journals or conferences), which implies a negative impression towards the paper.

5. The Abstract and conclusion are needed to be Modified in accordance to fulfill the paper aim.

6. Conflict of interest regarding article should be mention in the text.
